PROFESSIONAL SUMMARY

Full-Stack Web Developer with hands-on experience building modern web applications using React, JavaScript, Node.js, Express.js and MongoDB. Experienced in AI-assisted development using modern AI coding tools to accelerate architecture planning, implementation, debugging, refactoring and documentation. Strong software development foundation with practical experience in responsive UI development, REST APIs, authentication, database integration, testing and application maintenance. Comfortable using AI as a development assistant while reviewing, testing and refining generated code to deliver reliable applications quickly.

TECHNICAL SKILLS

- Frontend: HTML5, CSS3, JavaScript, React JS, Tailwind CSS, Responsive Web Design
- Backend: Node.js, Express.js, REST APIs, PHP
- Databases: MongoDB, MySQL
- AI-Assisted Development: AI coding assistants, prompt-driven development, code generation, debugging, refactoring and documentation
- Tools: Git, GitHub, Visual Studio Code
- Development: Full-stack web development, API integration, code debugging, code review, performance optimisation, SEO, web security, testing
- Professional: Communication, collaboration, adaptability, critical thinking, time management

WORK EXPERIENCE

Upwork | Freelance Full-Stack / Web Developer

- Developed and maintained web applications using modern frontend technologies including HTML, CSS, JavaScript and React.
- Expanded development capabilities towards full-stack applications using Node.js, Express.js and MongoDB.
- Used AI-assisted development workflows to speed up implementation, debugging, refactoring and repetitive coding tasks while reviewing generated code before integration.
- Built responsive, user-focused interfaces and integrated APIs for dynamic application functionality.
- Created unit tests, participated in code reviews and worked within Agile/Scrum-style development practices.
- Collaborated with designers and developers to improve usability, maintainability and delivery speed.

SELECTED PROJECTS

FreshMart | MERN E-Commerce Application

- Full-stack e-commerce application using React, Node.js, Express.js and MongoDB. Core work includes product, authentication, cart and order functionality, REST API integration and AI-assisted development workflows.

Hotel Lawa Website

- Developed web functionality for room availability, date enquiries and reservations. Added hotel information, amenities, location, FAQs and customer contact options. <https://www.hotellawa.net>

Weather Application

- Built with React JS and Tailwind CSS, integrating the OpenWeatherMap API to retrieve meteorological data for cities worldwide. <https://oladiti-weather-application.netlify.app>

Personal Portfolio

- Built with React JS and Tailwind CSS to present technical skills, projects and development experience. <https://oladiti-abiiodun.netlify.app>

EDUCATION

Ogun State Institute of Technology, Igbesa, Nigeria | HND, Software and Web Development

The Polytechnic Ibadan, Oyo State, Nigeria | OND, Computer Science

CERTIFICATIONS & TRAINING

- Certificate in Full-stack Developer Bootcamp: Master Frontend to Backend, February 2024
- Certificate in Dev Career Training Programme as a Front-End Developer, April 2024
- Accelerated Jobberman Soft Skills Training, February 2023
- Certificate in Web Development, June 2023
- Certificate in Responsive Web Design, August 2021
